

Primary 2 Newsletter

Primary 2 with Miss Neri & Mrs Matthew

We would like to say well done to all of the children in Primary 2 who have settled in so well during the first term. It has been great getting to know all of the children.

Looking forward

Numeracy—This term we will continue to use the BigMaths programme to ensure that the children's learning is targeted specifically to their knowledge and understanding. General topics will include telling the time, missing numbers, place value, as well as 2,5, and 10 times table. These tasks will be differentiated to suit the needs of the child.

Literacy— We will continue to introduce digraphs this term, as well as consolidate those sounds we have already introduced. This is to ensure that the children understand what they have learnt so far and can apply it across their learning.

We are also working really hard to write independently through story writing. Children are encouraged to spell common words and sounds that they have learnt so far.

Reading—We will continue to send reading books home every Monday. These will be returned on a Friday. The children complete tasks related to these books in class. The reading books are quarantined for 72 hours once returned to ensure the safety of all.

Spelling—We will be using the 'Nessy' spelling programme in class and during home learning. This programme also targets areas where the children may need extra support through fun and interactive games.

Context and other curricular areas—We are learning about different types of weather during the first half of term 2. Children will be involved in tasks such as making rain gauges, kites and even creating their own weather forecast. Leading up to Christmas, our context will be toys—old and new. If you have any old toys, please take a picture of them to help with class discussion and learning.

RME – we will be looking at Biblical stories and discussing the moral. We will also look at Christmas.

Fine and Gross Motor Skills – we will have active stations where children will explore their motor control skills.

Health and Wellbeing – We will be looking at emotions and keeping ourselves safe.

Home learning

From Monday, home learning tasks will be released every week on Google Classrooms. We will explain the learning that has taken place each week and will introduce tasks related to this. These tasks are to be completed if and when you can, they are not compulsory.

Things to remember:

P.E will be on Thursday this term.

Please drop off and pick up children at the gates.

Communication and progress updates will be through SeeSaw. Please use SeeSaw to communicate with us.
